

THE GUND COMPANY

MANUFACTURERS & FABRICATORS OF ENGINEERED MATERIAL SOLUTIONS

ITAR Compliant
AS9100C Certified
ISO 9001:2015 Certified

STANDOFF INSULATORS

Standoff Insulators from The Gund Company are ideal for use in supporting bus bars or other live electrical components. Manufactured from UL recognized fiberglass reinforced, flame resistant, thermoset polyester molding compound, these components exhibit strong mechanical and electrical insulating properties.

UL RECOGNITION

All Standoff Insulators from The Gund Company are UL recognized panel board and switchboard accessories that comply with the brace and support requirements of UL 891 Annex G. The listing can be found in UL File E354884.

LAB TESTED ASSURANCE

The Standoff Insulators are molded from a UL recognized polymeric composite material made of a mixture of unsaturated polymer resin, cross linked catalyst, shrink control polyester, fire retardant agent, color pigments, and glass strands. The production process is controlled in an ISO 9001:2015 manufacturing environment. Each lot is mechanically and electrically tested to ensure performance and reliability for most demanding electrical applications.

STANDOFFS@THEGUNDCOMPANY.COM

Who is The Gund Company?

Standoff Insulators from The Gund Company are designed for use in indoor applications. Insulators mounted within a suitable electrical cabinet are considered indoors even though the cabinet itself may be outdoors.

The mechanical and electrical performance ratings of the insulators are meant to serve as a guide for their application. Each application may require conformance to an industry standard or other specification which may involve different requirements. The insulator will continuously withstand its rated voltage but specific environmental conditions such as ambient humidity and dirt could require the de-rating of the insulator.

AVAILABLE INSERT MATERIALS

The Gund Company offers a variety of threaded insert material options to suit your application. For more information on these materials, or to request a quote for your requirements, contact one of our standoff insulator experts today! Visit us at standoffs@thegundcompany.com

Threaded insert material preferences can be indicated by adding a "-S" for Steel or a "-B" for Brass to the end of any Standoff Insulator part # from The Gund Company. If no indication is made, the standard insert material is aluminum. Example part numbers are listed here:

ALUMINUM
GINS-XXXX-XX

STEEL
GINS-XXXX-XX-S

BRASS
GINS-XXXX-XX-B
